

FAMILY PARTNERSHIP

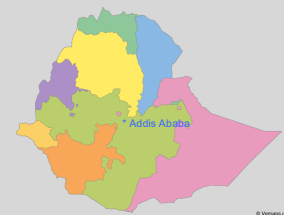

Adanech Asefa

Their Story: Adenach is 25 years old, married to a hard-working and committed husband, with a six month old son and a three year old son. Her growing family was doing very well until her husband had a stroke that led to him being paralyzed. All of their money was spent on his medical expenses, and his illness now prevents him from working.

Goals for the Future: Adanech plans to build a business making enjira, a bread-like main staple of the Ethiopian diet. She intends to sell to villagers to earn money for her family's food and to send her son to school.

Your support of \$50/month for three years will provide financial training, health and hygiene education, parenting classes, and counseling. It will also cover instruction, support and mentoring to establish and run a small business to secure a bright future for this family.
