

FAMILY PARTNERSHIP

Anbese Negera

Family Members: Anbese
Aster
Betelhem (daughter, 16)
Lamrot (daughter, 15)
Firaol (son, 12)

Their Story: Anbese is a 45 year-old husband and father who took pride in working hard and supporting his family prior to an accident that resulted in the loss of his leg. Though he is healing physically, it will no longer be possible for him to work as a driver. His wife, Aster, has begun to earn a small income selling home-made goods, but Anbese longs to help support his family.

Goals for the Future: Anbese would like to move into textile work as a way to earn income despite physical limitations. Monthly support and business training provided by the ABF4K program will help Anbese plan for, launch, and grow this new project, allowing him to once again support his family.

Your support of \$50/month for three years will provide financial training, health and hygiene education, parenting classes, and counseling. It will also cover instruction, support and mentoring to establish and run a small business to secure a bright future for this family.
