

FAMILY PARTNERSHIP

Idah Mwelo Kyalo

Family Members: Idah
Henry (son, 12)
Mayves (daughter, 6)

Their Story: Idah is a 30 year-old woman, who is raising two children from two different relationships. She has become reliant on her uncle, who is rather harsh and domineering, exploiting her desperate situation by paying her much less than an average wage for her work as a housekeeper in his home. However, she feels trapped by limited options and lack of ability to support herself and provide for her children.

Goals for the Future: Idah longs to be independent and would love to have a boutique of her own, selling clothing as a source of income. The business training and monthly support provided by the ABF4K program can help grow Idah's skills and confidence, allowing her to chart a new path for her family.

Your support of \$50/month for three years will provide financial training, health and hygiene education, parenting classes, and counseling. It will also cover instruction, support and mentoring to establish and run a small business to secure a bright future for this family.
