

# FAMILY PARTNERSHIP

## Meseret Selassie

**Family Members:** Meseret  
Dagmawit (daughter, 9)

**Their Story:** Meseret is a 42 year-old single mother. She is a bright woman, who was enrolled in a local university before dropping out in order to care for her parents, who were both very sick with HIV before dying recently. Meseret, herself, struggles with heart issues and is searching for ways to provide for her daughter, despite physical limitations.

**Goals for the Future:** Meseret is not yet sure what type of business she will pursue, but the ABF4K staff in Ethiopia is committed to helping her assess the needs within the community and her own skills to find the right fit. The monthly support, community-building, and business training provided by the ABF4K program will set Meseret and her daughter on a path of hope.

Your support of \$50/month for three years will provide financial training, health and hygiene education, parenting classes, and counseling. It will also cover instruction, support and mentoring to establish and run a small business to secure a bright future for this family.

Addis Ababa, Ethiopia
