

FAMILY PARTNERSHIP

Senait Belachew

Family Members: Senait
Eskedar (daughter, 14)
Mezmur (daughter, 8)
Kidus (son, 5)

Their Story: Senait is a 38 year-old single mother. Her husband, who suffers from mental illness, abandoned the family two years ago. Senait struggles with poor physical health, so her eldest daughter is currently out of school to help with care and various household tasks.

Goals for the Future: Monthly support for this family can provide medical care for Senait and eventually give Eskedar a chance to continue her education. The business training provided by the ABF4K program can help Senait discover a way to provide for her family.

Your support of \$50/month for three years will provide financial training, health and hygiene education, parenting classes, and counseling. It will also cover instruction, support and mentoring to establish and run a small business to secure a bright future for this family.
